

**SENSORY PLAY
THINGS TO DO WITH...**

SAND

1. Make a sand kitchen - using pots and pans, water, wooden spoons and bowls will keep them very entertained. Sand cake anyone?
2. Make some whippy sand! This is a must try! Mix together wet sand with a good dollop of fairy liquid and whisk it all up. We gurantee adults will love it just as much!
3. Sand art -use PVA glue to draw pictures and patterns and then have fun sprinkling over the sand.You can use coloured sand for this too!
4. Explore texture by making patterns, words or pictures in dry and wet sand.
5. Use shells, water and buckets and spades to bring the beach to your own garden!
