

SENSORY PLAY
THINGS TO DO WITH...

SHAVING FOAM

1. Squirt into a tray - get feet and hands stuck in! Make patterns, do some writing, drawing, pat it and clap it together!
2. Add shaving foam to sand for a unique sensory experience
3. Add ice cubes to shaving foam to explore the different textures
4. Slip and slide toy cars in the foam or use it as a building material for foam bricks to stick together!
5. Create rainbow foam by putting blobs of different coloured paints in ready for the children to spread and mix!
